

MARTIN SCHETTER

DETAILS

ADDRESS

19 allée Jean de la Croix
77200 Torcy (France)

EMAIL

martin.schetter@outlook.com

FRENCH NATIONALITY

LANGUAGES

FRENCH	Native
ENGLISH	Bilingue
TOEIC	940
PORTUGUESE	Conversational
SPANISH	Conversational
GERMAN	Baccalauréat

HOBBIES

- * Exploring the wildlife through Journeys
- * Discovering myself through the Meditation
- * Surpassing myself through Sports

COMPETENCES

R/RStudio	3 yrs	BioStat/AI
MATLAB	3 yrs	BioStat/AI
Python	3 yrs	Polyval.
C/C#	3 yrs	Polyval.
LaTeX/Bib.	2 yrs	Polyval.
Git/GitHub	2 yrs	Basic Cmd
Bash/Shell	2 yrs	Basic Cmd
Java	1 yrs	Polyval.
Benchling	6 mo.	Gene Inser.
HTML/CSS	6 mo.	Basic Page

EDUCATION

University, Tecnológico de Monterrey

Monterrey, Mexico

Aug 2023 - Dec 2023

- Discovered an American based university and the vision of science in the north of Mexico in a biotechnology post-engineering graduation course.
- Benefited of a semester of research oriented classes in microbiology, cellular physiology, instrumental analysis, genetic engineering with top tier mexican engineers.
- Currently working on the publication of a review article investigating the impact of ω_3 on the obesity disease between the adipose tissue and hypothalamus.

Engineering school, ESIEE Paris

Noisy-Le-Grand, France

Sep 2020 - Jun 2023

- Currently in a five-year program leading to the equivalent of an MSc in Engineering, specialised in eHealth/Digital Health.
- Learnt to use very theoretical concepts of traditional mathematics, statistics and machine learning algorithms towards goals that can lead humanity for the better.
- Fulfilled myself with scientific and miscellaneous projects in an environment full of researchers, teachers and engineering-student in various specialities.
- Managed different associations and different teams of student for the student's well-being in the very high-demanding environment of ESIEE Paris.

College preparing class, Lycee Jean Moulin

Torcy, France

Sep 2017 - Jun 2019

- A two-year secondary level course preparing the engineering school : very intensive course in maths, physics, algorithms and informatics.
- Learnt to core theories of mathematics, physics and computer science that will help me throughout my whole carrers to understand abstracts concepts.
- Successfully managed my emotions to perform in a relentless and competitive environment with an extremely high density of working hours.
- Pleased to get my scientific Baccalauréat with distinction.

INTERNSHIP

Brain research, CHUV Lausanne

Lausanne, Switzerland

May 2022 - Aug 2022

- Introduced to research in neuropsychology with a 3-month internship to investigate the impact of pedagogy on the development of students' brain.
- Immersed in a stimulating lab environment where PhD and postdoc researchers have opened my views of science and let me foresee a futur in the research field.
- Learnt the process of writing a manuscript in a back and forth remote work between collaborators in order to achieve the article's publication.
